RDY CREATIVE LTD (November 2019 - Current)

Managing Director | Creative Producer | Voice Director | Engineer

As the Managing Director and Co-Founder of RDY Creative, a London-based audio production company, I have been at the forefront of delivering pristine audio quality for a diverse, global clientele. Responsibilities included the general managing and technical upkeep of the recording facilities as well as numerous administration roles such as budgeting, project management, client and third-party vendor liaison, contracting and supervisory roles.

Our facility has been and still is a hub for recording content with international acclaim, garnering a robust and satisfied client base. However, I find myself at a juncture seeking more, aspiring to channel my expertise in a more specialised manner and to potentially utilise as part of my role, our facilities for long-term, impactful projects.

- Directing talent for EA, DICE and Embark Studios (BF2042 & The Finals)
- Managing client liason, introductions & leads across marketing/sales departments.
- Financial project management across all business areas from utilities, VAT to budgeting, contracting and negotiating for high profile promotional content.
- On-location recording for EA, SIDE UK, ILM and various AV live format events.
- Producing, Casting and Recording over 30,000 delivered files for EA, DICE.
- HMC/Motion Capture Expert, Composer and Mix Engineer.

SIDE UK (July 2016 - October 2019)

Voice Director & Audio Engineer

Voice directed talent for titles such as Greedfall, Spiderman, Age of Empires: Definitive Edition, Star Wars: Battlefront II & Cyberpunk 2077. Managing AAA and Independent game audio/dialogue recording sessions. Client facing, working with high profile talent and important clientele. As one of SIDE's longest serving and most trusted engineers, I was often implemented on the companies' larger projects to ensure client relations and technical specifications were initiated correctly.

- Voice Directed talent for Spiders newest RPG cross platform title (Greedfall)
- Lead Audio Engineer on DICE's critically acclaimed titles (Battlefield V, Battlefront II)
- Lead Dialogue Engineer on Kojima Productions' new title (Death Stranding)
- On-location walla session recording engineer (Assassin's Creed: Odyssey)
- On-location VR audio recording working with Sam Mendes (ILM: Pinnocchio Demo)
- HMC operator/research and development
